SUMMARY

BS Computer Science student (UMT) with hands-on experience building n8n automation workflows, REST API webhooks, and AI agents for real client systems. Proven ability to design, test, and deploy end-to-end solutions that integrate OpenAI APIs, Supabase, and Google Sheets to deliver rapid automation for businesses.

SKILLS

- **Workflow & AI Automation:** n8n, Agentic AI Design, Prompt Engineering, LLM Integration, Custom Tool Calling
- **Integrations & Protocols:** REST APIs, Webhooks, JSON Parsing, HTTP Methods
- **Core Computer Science:** C++, Object-Oriented Programming (OOP), Relational Databases (SQL), Computer Networks, Data Structures

EXPERIENCE

AI Automation Developer — Client Projects *2026 – Present*

WhatsApp Healthcare Agent & Booking System | n8n, OpenAI API, Supabase, RAG, Webhooks

- Engineered an end-to-end WhatsApp conversational AI assistant via n8n webhooks, automating patient appointment booking and resolving complex clinic FAQs.
- Architected a Retrieval-Augmented Generation (RAG) pipeline linking OpenAI LLMs to Supabase vector storage, enabling precise medical knowledge base queries.
- Implemented automated database state synchronization in Google Sheets, eliminating manual booking conflicts and streamlining administrative operations.

Automated Lead Intelligence & Scraping Pipeline | n8n, FastAPI, OpenAI GPT-4o mini, Python, REST APIs

- Designed an automated data-enrichment workflow in n8n triggered by website form submissions to execute real-time lead qualification.
- Built custom FastAPI microservices to scrape target website URLs, extracting raw DOM data and passing structured payloads into n8n nodes.
- Leveraged OpenAI GPT-4o mini to convert unstructured web content into validated JSON schemas, powering programmatic multi-step responses back to external APIs.

PROJECTS

- **WhatsApp Appointment Agent** | n8n, OpenAI API, Supabase, Vector RAG — GitHub
- **AI Contact Form Agent** | n8n, FastAPI, Python, GPT-4o mini, Web Scraping — GitHub

EDUCATION

BS Computer Science (BSCS) — University of Management and Technology (UMT) *2024 – Present*

CGPA: 3.4 / 4.0

Intermediate in Computer Science (ICS) — Punjab College *2022 – 2024*

Completed

CERTIFICATIONS & KEY ACHIEVEMENTS

- Foundations of Prompt Engineering — Professional Certification
- Agentic AI & Automation Expert: Roadmap from Prompt to Deployment
- Agentic AI Workshop & No-Code AI Agent Builder
